Performance and risk data is simulated and relates to Thesis internal models, calculated on a total return basis before fees and should only be taken as indicative of performance for portfolios constructed according to this strategy.

Cumulative 5-year investment performance to last month end

Source: Morningstar, bid to bid, net income reinvested. Performance shown before 19/11/2012, when Optima B share class was launched, is simulated past performance based on the actual performance of Optima A share class. Past performance is not a guide to the future. The value of your investment and any income from it may fall as well as rise, and you may get back less than you invested. Movements in currency exchange rates can affect the value of an investment.
